

'Sahara Live at The Malthouse' concert took place at the Malthouse Theatre Melbourne on September 4th 1999. This concert was filmed live for webcast on a New York based internet TV site. Due to the enthusiastic response from both the audience that night and from viewers on the internet we were persuaded to release a selection of songs on CD. The audio was a stereo live feed from the mixing desk to the camera, no second takes and no remixing in the studio afterwards.
